

Hive Layout Guide.

**Seven preset layouts.
Endless possibilities.**

Hive is a modular seating and planter system designed to help create greener, more sociable spaces across the public realm, commercial developments, education campuses, healthcare environments and rooftop terraces.

Built around a simple hexagonal form, Hive offers the flexibility to create anything from compact seating clusters to large-scale landscape interventions.

Why choose Hive?

1.

Start with a layout.

Seven preset configurations provide proven starting points for a wide range of projects.

2.

Adapt to your project.

Every layout can be expanded or reduced to suit the needs of your site.

3.

Grow over time.

Add seating or planting modules as budgets, user needs or project requirements evolve.

4.

Create multifunctional spaces.

Combine seating and planting to support wellbeing, biodiversity and social interaction.

5.

One system. Multiple sectors.

- ✓ Public Realm
- ✓ Commercial
- ✓ Rooftop
- ✓ Healthcare
- ✓ Education

"The challenge with Hive isn't what you can create – it's where to begin. That's why we've developed seven layouts to help inspire your next project."

Explore the Layouts.

What will you create?

Get in touch to discuss your project and explore the full Hive range.

Whether you're designing a town centre, rooftop terrace, healthcare garden or educational campus, Hive provides a flexible foundation that can evolve alongside your project.

Start with a layout. Adapt it. Expand it. Make it your own.

Cluster

Sociable, sheltered and green.

Ideal for healthcare gardens, education campuses and workplace courtyards.

Honeycomb

Flexible, scalable and connected.

Perfect for public realm projects, civic spaces and commercial developments.

Linear

Simple, functional and adaptable.

Well suited to streetscapes, walkways and boundary treatments.

Orbit

Designed to bring people together.

Creates a focal point for gathering, interaction and conversation.

Peninsula

Defines space and guides movement.

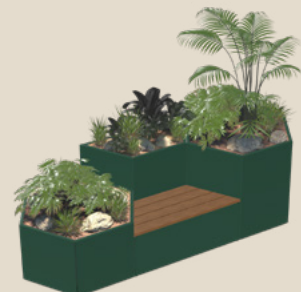

Ideal for creating transitions, thresholds and informal zones.

Island

Multiple destinations. One design language.

Perfect for shopping centres, public plazas and large open spaces.

Chelsea

Small footprint, big impact.

Inspired by Hive's debut at the RHS Chelsea Flower Show and ideal for parklets, pocket parks and compact urban spaces.
